Overall Rank: 11

OneDrive - Personal  
Up to date

## KEY POINTS:

- the dashboard contains a map along with different factors such as happiness score for the chosen country, the corruption perception, social support, freedom to make life choices and some other.
- a dropdown is the tool that is used to switch among those factors to see the related info.
- For each factor that will be selected, the country with the highest score and the one with the lowest score pops on the screen along with a list of 5 countries with highest score as well as the 5 countries with lowest score.
- in addition to the information mentioned above, the map offers the possibility to select a specific country to check how it has been rated on different factors.

THE DESIGNED DASHBOARD CAN BE USEFUL FOR A COMPARISON AND A GENERAL DECISION MAKING.

LET US SAY THAT SOMEONE IS WILLING TO MOVE TO A NEW COUNTRY. BASED ON THE PROVIDED INFO, THE PERSON WILL HAVE A GENERAL UNDERSTANDING OF THE QUALITY OF THE LIFE AND TAKING INTO ACCOUNT THE FACTOR/FACTORS WHICH HAVE THE PRIORITY FOR THAT PERSON. HE/SHE CAN DECIDE WHETHER THAT PLACE COULD BE SUITABLE FOR HIM/HER.
